

Flickr widget

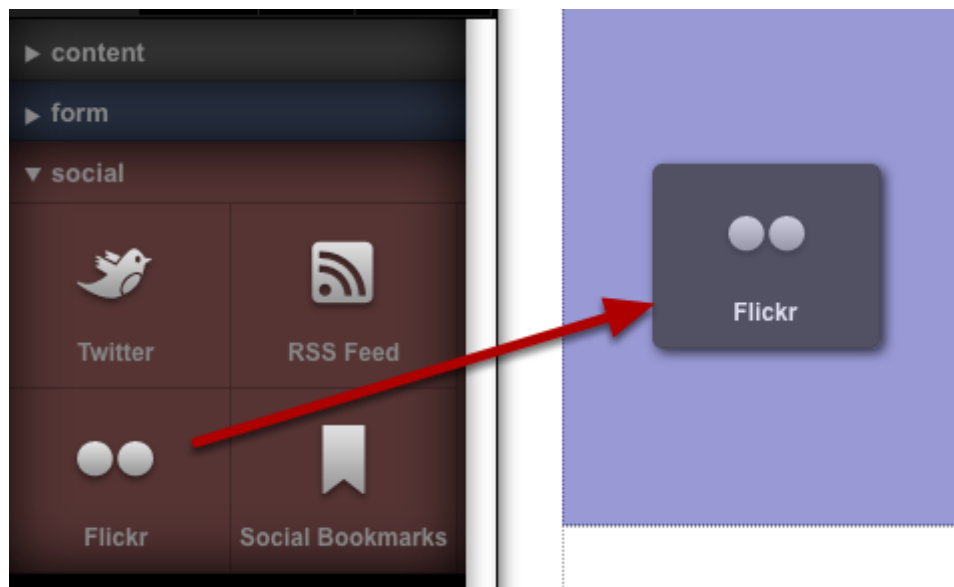

The Flickr widget displays thumbnails from Flickr that match a search term. Clicking on a thumbnail will display a larger image.

Locate the Flickr widget

Click on the widgets tab and then **Social** (1). You may need to scroll down to see the **Flickr widget** (2)

Drag and drop the Flickr Widget to an edit zone

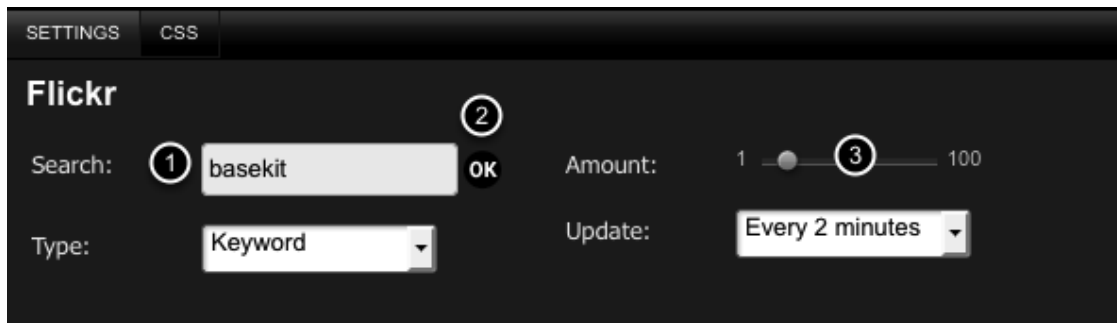

After a few seconds the widget will appear with a default image selection

Click the edit icon to change the default settings

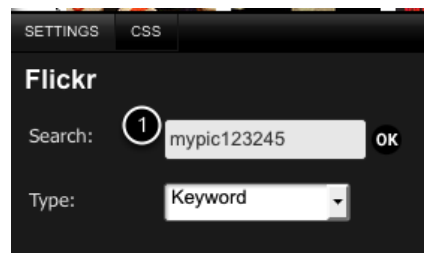

Enter a new search term

Change the **search term** (1). Click the **OK button** (2) to update the widget. It may take up to 20 seconds to update the widget. Adjust the number of pictures to be shown using the **Amount slider** (3)

Show a specific group of pictures

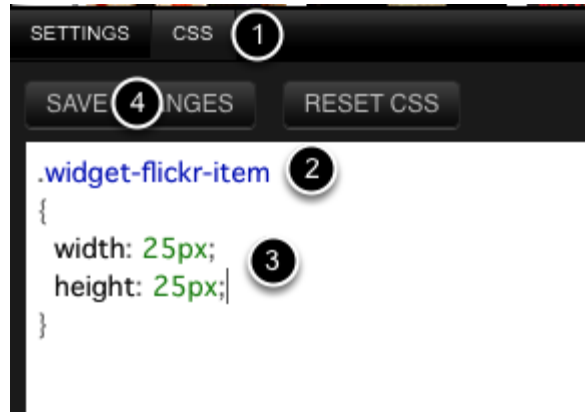

To use the Flickr widget with a specific set of photos you first need to give them a unique tag in Flickr.

Use the same tag in the **search field (1)** on the Flickr widget panel and your photos will appear in the widget.

Note: Flickr may take hours or even days to propagate new tags.

Change the size of the thumbnail

1 Click on the CSS tab

2 Change the line of CSS to read

```
.widget-flickr-item
{
  width: 25px;
  height: 25px;
}
```

3 Change the width and height values

4 Click the save changes button
